The 26th International Conference on Pediatric Cardiology and Congenital Heart Disease (Pediatric Cardiology Week 2019) hosted by EuroSciCon took place at Florence, Italy during December 05-06, 2019. It was organized by EuroSciCon and generous response was received from the Editorial Board Members of EuroSciCon Journals as well as from eminent scientists, endowed researchers and young student community. Young Researcher who attended from different parts of the world made the conference one of the most successful and productive events in 2019 from EuroSciCon. The two day program viewed thought provoking keynote and plenary presentations from experts in the field of Pediatrics and Congenital heart disease highlighting the theme, " Highlighting Latest Advancements and Trends in Pediatric Cardiology and Congenital Heart Diseases

We are obliged to the various delegates from companies and institutes who enthusiastically took part in the discussions. We sincerely thank the Organizing Committee Members and Editorial board of Pediatric Cardiology 2019 for their gracious presence and continuous support throughout the proceedings of this event.

The Majorly Focused Highlights for our Pediatric Cardiology 2019 Conference were Atherosclerosis Risk Factors, Congenital Heart Defects, Echocardiography, Heart Transplantation In Children, Interventional Paediatric Cardiology, New-Borns With Cyanosis, Pacemakers For Children etc.
